

**ASRCT AGM
PROVINCIAL DIRECTOR'S REPORT
APRIL 24, 2010
EDMONTON, ALBERTA**

CSCT 2009 AGM was held in Edmonton on October 25, 2009. 83 voting members were present. We were excited to see members from across the country join us in Alberta, the last time CCC sessions will be held here. It will now rotate between three cities, Montreal, Vancouver and Toronto. Edmonton Cardiologist Dr. Evan Lockwood is our Honorary President for this year. He gave some wonderful opening comments on our Association and the value physicians have for us as part of the cardiology team to provide patients the best possible care.

Outgoing CSCT President Lynn Douglas welcomed our current CSCT President Michele Tkach who is from Saskatchewan. Marg Mount, the Ontario Director is now our current CSCT Vice-President. The majority of the members present at the AGM requested that we return to having an official CSCT education day at the CCC and this will occur at CCC 2010. As well, our members can still continue to attend any education sessions offered at the conference.

CCC 2010 will be held in Montreal October 23-27, 2010. New Brunswick will be the host province. It is CSCT's 40th anniversary. Come out to these wonderful educational sessions and celebrate 40 years of your profession.

On September 1, 2009, our ASRCT President, Christine Williams informed us she could no longer continue her duties. We wish Christine well in all future endeavours and thank her for her service to our association. We very much appreciate that Larry Leduc, our ASRCT Vice-President, has taken on these duties since that time.

Our current CEU triennium is January 1, 2008-December 31, 2010. Please have your CEU's submitted to our CEU co-ordinator as that deadline is fast approaching. Attending the CCC in Montreal will give you 10 CEU's, a wonderful way to supplement what you already have collected.

The Alberta Board welcomes your input and needs your involvement. Please consider running for an executive position or helping out on a committee. It is a wonderful learning opportunity and service to your society. The ARSCT and CSCT websites are both excellent ways to keep informed.

Respectfully submitted,
Mary Fielden
ASRCT Provincial Director
